

Drug Discount Card Program Overview

The Drug Discount Card Program is a free program designed with the underinsured in mind. Our program provides the ability for individuals that do not qualify for safety net programs to purchase prescription drugs at a significant discount. The discounts average 10% to 85% on brand and generic drugs.

The Ramsell Pharmacy Drug Discount Card provides public health entities – federal, state, counties and community health clinics – with a unique opportunity to provide an added benefit to their served base with NO COST or administrative burden to the agency or individuals receiving the card.

Key Benefits

- **No Costs** – **FREE** Membership with no inherent costs to local, county, or federal entities, or individual participants.
- **Easy Enrollment** – Enrollment is easy and instant.
- **Everyone is accepted** – The card is available to anyone, regardless of their current health condition or age.
- **Significant Discounts** – Members immediately receive a discount averaging **10%** to **85%** on prescription drugs.
- **Extensive Pharmacy Network** – The card can be used at over **58,000** pharmacies throughout the United States.

Why Ramsell

The Ramsell Companies have more than forty (40) years of successful experience serving medically-indigent communities and administering government-sponsored prescription drug programs.

Ramsell Public Health Rx is committed to being a resourceful partner to public health programs. We continue to develop solutions, such as this discount card, to maintain the health of patients without putting a financial burden on programs or patients.
