

Public Health Rx Mission

Ramsell Public Health Rx's mission is to improve the lives of the medically indigent and those dependent upon the public health system.

Our History

Since 1964 we have been a resourceful partner to the public health community working closely with county, state and federal health administrators to tailor pharmacy and IT related services for impoverished areas and the most fragile among us.

We understand that individuals who rely on the public health sector and work within it require a greater level of sensitivity and attention. That's why our team is made up of dedicated and compassionate experts who understand the challenges involved in serving these needs and are passionate about finding solutions that are adaptive to the ever-changing population and legislation.

**At Public Health Rx,
our heart is in public
health.**

Help You Can Bank On

Ramsell Public Health Rx is a fully transparent PBM providing its clients with complete control of their pharmacy benefits program.

The company provides claims adjudication, drug utilization, formulary and rebate management, a national pharmacy network and mail order services

focused on delivering cost effective solutions and improving client outcomes.

The company also provides specialized public health services to administer government programs including the AIDS Drug Assistance Programs (ADAP), State Pharmacy Assistance Programs (SPAP) and 340B Pharmacy Network management.

Public Health Expertise

Ramsell Public Health Rx has more than 25 years of diverse experience contracting for public health programs.

Our roots in public health allow us to understand the needs of the public health sector and the mindset of public health administrators – ultimately getting services/medications to those in need and enabling positive patient outcomes.

Services are always tailored to the unique needs of each customer.

Custom Program Design

Working in partnership with the program sponsor, Ramsell Public Health Rx will configure an administrative infrastructure tailored to fit the sponsor's specific service needs based upon the program.

We utilize a custom-developed application, PMDC Systems™, to assist with the management and administration of these programs.

Ramsell Public Health Rx places heavy emphasis on cost containment and quality assurance. We are a competent and experienced organization, and our service attitude runs deep in everything we do.

Why Public Health Rx?

- Full Transparency pass through pricing model – Unlike other PBM's we pass through all pharmacy costs and 100% of rebate dollars to the sponsor only charging a per claim transaction fee providing you with significant savings.

- Improved program data management – Public Health Rx's data management systems provide real-time access to data and reports that can be used for program trending and forecasting.

- 40 years of experience in exclusively administering public health programs.
- Commitment to helping covered entities stretch their dollars while maximizing value .

At Ramsell Public Health Rx, our **heart** is in Public Health.
