

Ryan White CARE Act – Part B funded State AIDS Drug Assistance Programs (ADAPs) are responsible for collecting and managing data to ensure that program eligibility requirements are met, and that ADAP is the payer of last resort. Additionally, ADAP States must report data describing the demographics of ADAP clients served and prescriptions utilized. This requires the State ADAP to have access to timely and accurate data.

Ramsell Public Health Rx Solution

Ramsell Public Health Rx offers a web-based ADAP Data Management system that manages all of the data for ADAP programs, whether the Program is Rebate or Direct Purchase. Our technology solution is a flexible, configurable system that puts the Ryan White HIV/AIDS Program grantee in complete control of its data. With more than fifteen years of experience in ADAP management, **Ramsell Public Health Rx** can successfully tailor its system to manage all aspects of Program.

Ramsell Public Health Rx ADAP Data Management System Benefits:

- Real-time access to State ADAP controlled data.
- Consistent application and tracking of State enrollment and eligibility data.
- Improved reporting capability for HRSA required data reports to include ADAP patient demographic and prescription utilization data.
- Inventory management tools and reports for direct purchase ADAP states.
- Proficient formulary management tools.
- HIPAA compliant security standards.
- Electronically-stored data improves business continuity and disaster recovery.
- Continual configuration of the system and processes to meet your ADAP needs.
- Facilitates effective and efficient program administration for your State ADAP.
- Premium Payment for Medicare Part D; ensures ability for Medicaid to defer cost to Medicare

Why Ramsell Public Health Rx

- Forty (40) years of experience in exclusively administering Public Health programs, including fifteen (15) successful years with State ADAP Programs.
- Focused on improving patient outcomes and the lives of the medically indigent.
- Committed to helping Public Health entities maximize their dollars while improving their healthcare value.
- Experts in helping State-funded ADAP programs design systems and processes.
- Time-tested and proven, automated ADAP management systems.
